TECMAVEN

CATIA Composer Essentials	
Course Duration	3 Days
Audience	Technical Illustrators, Technical Support / Sales Engineers, Sales Demonstrators
Description	This course will teach you how to work with a 3D model using CATIA Composer to capture its views, add annotations and change its rendering style. You will learn how to create technical illustrations, high resolution images and animations. You will also learn how to publish and share the content.
Objectives	Upon completion of this course you will be able to: • Open and navigate a model using CATIA Composer • Capture views of the model • Enhance the model by adding annotations and changing its rendering • Create technical illustrations • Create high resolution images • Create animations • Publish and share the CATIA Composer content
Prerequisites	Students attending this course should be familiar with the Windows Operating System.
