

Composites Part Manufacturing

Course Duration	2 Days
Audience	Composites for Manufacturing Designers
Description	This course will teach you how to build composite parts detail design
Objectives	<p>Upon completion of this course you will be able to:</p> <ul style="list-style-type: none">• Understand the significance of the Manufacturing Data creation process in Composites design• Generate the Manufacturing data structure from the Engineering data structure• Modify the Manufacturing data structure• Synchronize the link between the Manufacturing and the Engineering part
Prerequisites	Students attending this course should be familiar with Part Design, Assembly Design, Wireframe and Surface Design, and Drafting.
